PROFILE

M.Sc. Mechanical Engineering & Management candidate (TU Hamburg, 2026) with hands-on experience in CAD/CAE design and simulation across ANSYS, SolidWorks, Fusion 360, and Siemens NX. Proven track record in manufacturing optimization, reducing production waste by 35% and cutting documentation time by 75% through Python automation.

SKILLS

Languages: German (B2), English (Fluent), Hindi (Native)

Engineering Software: CATIA (3D EXP.), Siemens NX, SolidWorks, Fusion 360, AutoCAD, ANSYS, Inventor

Business Tools: Power BI, Tableau, Jira, SAP ERP, Advanced Excel, MS Office

Programming: Python (Pandas, NumPy, transformers), MATLAB, Simulink, SQL.

EDUCATION

10/2022 – 03/2026 **M.Sc. in Mechanical Engineering and Management**
Technische Universität Hamburg, DE

07/2017 – 07/2021 **B.Eng. in Mechanical Engineering**
Gujarat Technological University, India

PROFESSIONAL EXPERIENCE

07/2021 – 08/2022 **Jr. Design Engineer**
GERENT, India

- Engineered and validated mechanical components using Fusion 360 for 3D modelling and ANSYS for simulation.
- Optimised manufacturing processes, achieving a 35% reduction in production line waste.
- Automated engineering certification generation with Python/VBA, slashing documentation time by 75%.

PROJECTS

09/2025 – 02/2026 **Sentiment Analysis and Topic Modelling of 1M+ Consumer Reviews**
Master Thesis

- Extracted ranked customer experience insights from unstructured text to help businesses prioritize reputational risks. **Tools:** Python, BERTopic, BERT, Pandas, NumPy

05/2024 – 10/2024 **Commercial Viability Assessment of Alternative Fuels in Maritime Industry**
Fraunhofer CML Project

- Developed a weighted scoring matrix to evaluate and compare alternative maritime fuels for strategic decision-making. **Tools:** Power BI, Jira, Excel

12/2020 – 04/2021 **Regenerative Braking System as a Modular Front-Wheel Attachment for Bicycles**
Bachelor Thesis

- Designed and validated a complete energy recovery braking solution through CAD modelling and simulation. **Tools:** Fusion 360, SolidWorks, ANSYS
